

The Commons

Original Commons Demolished 2009 - New Commons Completed 2011

- The Commons building features an indoor playground that features infant/toddler areas, slide, tunnel and a two story Luckey Climber.
- **Goal:** Your task is to create a playground that children or all ages will love.
- **Think About Your Structure:** What do you love about your favorite playgrounds? Slides, tunnels, monkey bars, climbing, swinging. How will you use your objects to create your favorite parts?
- **Hint:** Create one part of the playground at a time and then add more and more elements.
- **Now What?** Would this be a playground that a whole family could enjoy, even the toddlers and adults? Would you add some elements to make the playground safe too?

Ramp

- popsicle stick
- cardboard box

Stairs

- Pipe Cleaners
