

The Republic Building

Completed 1971 - Repurposed 2018

- The Republic Building’s landscape is recognized for the allee of trees. An allee of trees is a row of trees that are side by side and lines up exactly.
- **Goal:** Your task is to create an allee of trees.
- **Think About Your Structure:** How will you make sure that your trees are lined up exactly?
- **Hint:** Use a ruler or edge of a box to help create a straight line to start your allee of trees.
- **Now What?** What are the benefits of having an allee of trees in the landscape of a building?

• Cardboard Box for reference
