

MAIN BUILDING (GOLDEN DOME)

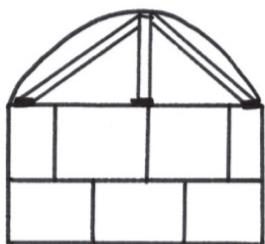

COMPLETED IN 1879

The Golden Dome Building is a recognizable building on Notre Dame's campus.

- **Goal:** Your task is to create a building that has a dome top.
- **Think About Your Structure:** Try to make the dome as sturdy as possible! Start with a solid base that will support the dome.
- **Hint:** Do you really want to up the ante? Create a dome out of rolled up newspaper that you are able to crawl inside. Materials you would need are old newspapers, masking tape and scissors.
- **Now What?** Why would a dome be beneficial for a building? What is added to the structure from the dome?

- blocks
- straws
- tape
- tissue paper
